Required for Consideration

**COURT NETWORK SYSTEMS ANALYST II/III
SERVER SPECIALTY**

LAST NAME: _____ FIRST NAME: _____

SOCIAL SECURITY NUMBER: _____

STREET ADDRESS: _____

CITY: _____ STATE: _____ ZIP CODE: _____

HOME PHONE: _____ CELL PHONE: _____

NOTE: Before completing this application, read the job summary and the requirements stated on the job announcement. If you do not meet these requirements, **DO NOT APPLY**.

These questions are designed to assist you in presenting your qualifications for this position. Your answers should be as complete and specific as possible. Please provide clear and detailed responses.

Your responses to Section D must be typed on 8-1/2" x 11" sheets of paper and attached to this form, or submitted electronically. Your name must appear on each sheet of paper/page. **In each of your responses please indicate for which employer you performed these duties, your job title, and the length of time you performed these duties.**

Wherever specific information has been requested, it MUST be stated. Do NOT make statements such as "Refer to résumé or application." You may attach a résumé, but you still must complete all sections of this Supplemental Questionnaire in order to receive consideration.

Questions not applicable to your particular qualifications should be marked "N/A" to indicate they have not been overlooked.

Incomplete or illegible forms may be the basis for disqualification, so please provide complete and legible information.

You must sign and date the certification at the end of this questionnaire.

Section D.

Your responses to Section D must be typed on 8-1/2" x 11" sheets of paper and attached to this form, or submitted electronically. Questions not applicable to your particular qualifications should be marked "N/A" to indicate they have not been overlooked. **In each of your responses please indicate for which employer you performed these duties, your job title, and the length of time you performed these duties.** On each sheet of paper write your name.

1. Describe your experience in working with server equipment, including general rack servers, blade servers, blade chassis' and blade system interconnects. In addition to describing your relevant experience, please identify the manufacturers of the equipment and any related models/types of equipment in order to provide a better picture of your experience. Lastly, briefly explain the size of the environments in which you were able to apply your skills mentioned above.
2. Describe your experience in working with enterprise SAN and storage array equipment, such as fiber channel fabric switches, large disk arrays and fabric zoning software. In addition to describing your relevant experience, please identify the manufacturers of the equipment and any related models/types of equipment in order to provide a better picture of your experience.
3. Describe your experience with server/storage/infrastructure monitoring software. Please identify the name of the software and provide an explanation of how it worked in your current or past environment, including what it monitored and how it reported and/or sent alerts.
4. Describe your experience with virtual server environments and hypervisors, including virtual desktop infrastructure (VDI) if applicable. Please provide detail on the number of hosts and virtual guests active, plus your level of involvement in regards to managing and/or designing and implementing the overall environment.
5. Describe the mainstream server software products that you are comfortable with managing and are very knowledgeable about. (Examples: Microsoft Exchange 2010, Microsoft SQL 2008 R2, SharePoint 2010, IBM FileNet, WebSense, anti-virus brands, etc.) Software products that you list should include those you are very capable of managing and supporting independently with little or no support from others.

Network Systems Analyst II/III, Server Specialty

6. Describe your experience with managing and upgrading a Microsoft Active Directory environment. Briefly explain how large the environment was, including the approximate number of domain controllers and/or global catalog servers, what functional forest/domain level they were, and approximately how many sites were identified in sites and services.

7. Describe your experience in installing, supporting and working with voice over IP (VoIP) telephone systems, including related IP voice products, such as call management, contact center, voicemail, emergency call tracking and meeting systems. In addition to describing your relevant experience, please identify the manufacturers of the equipment and any related models/types/versions of equipment and/or software in order to provide a better picture of your experience. Lastly, briefly explain the size of the environments in which you were able to apply your skills mentioned above.

CERTIFICATION OF APPLICATION

I hereby certify that all statements made on or in connection with this questionnaire are true to the best of my knowledge and belief. I understand that false statements of material facts or omissions may subject me to disqualification.
